Summary

Full stack software developer with expertise in back-end and front-end development, experienced in different project architecture design.

Experience

Software Engineer

Taazaa Tech Pvt. Ltd., Noida, Noida
04/2022 - 10/2023

- Engineered scalable RESTful APIs using ASP.NET Core and SQL Server, optimizing query performance and reducing API response time.
- Architected and deployed microservices-based workflow systems using API Gateway.
- Work on Angular for front-end integrations.

Skills

- .NET, Angular, Web development, software architecture building(Microservices, Monolithic, DDD), Entity Framework Core, REST APIs, OOPS, Git, Docker, RabbitMQ, Unit Testing, MySQL, PostgreSQL, Python, Machine learning models.

Strengths

- Problem-solving & analytical thinking, Quick learner, Clean, maintainable code practices and adaptable to new technologies.

Projects

Employee Management System

- Tech Stack: .Net core 8.0, Angular 21, Jwt authentication, notification, RabbitMQ, Sendgrid.
- Backend implementation using .net core with Monolithic architecture.
- Personal user account for Employee, HR, Admin and fully customizatable and scalable app.
- Frontend implemented using angular component based application.

Trip booking and Travel management system

- Tech Stack: .Net Core, Angular, RabbitMQ, SendGrid
- Backend implementation using .net core to create microservice based application with API gateway
- architecture.
- Ceating Notification Service, Media Service and Authentication service and creating service communication.

Fake News Detection System

- Tech Stack: Python, Pandas, Numpy, sklearn, Scikit-Learn, NLTK, TF-IDF, Logistic Regression.
- Developed an end-to-end NLP classification pipeline on a dataset of 39,000+ news articles to identify fake
- news with 95%+ high precision.
- Applied custom text normalization and created a real-time prediction interface.
- Evaluated multiple classification algorithms (SVM, XGBoost, Logistic Regression etc) and selected Logistic
- Regression for production due to optimal latency and high test accuracy (98%).

Education

- Bachelor of Computer Science, Dr. A. P. J. Abdul Kalam Technical University, Prayagraj, 2019-2022

Languages

- English, Hindi, Urdu
